

Ultra Xtreme Rad

Delivering real warmth to your home with a generous flame view to enjoy on those cold winter nights. Firebox construction of solid 6mm NZ made steel and firebrick lined for maximum radiant heat.

The Ultra Xtreme Rad is fitted with a convection fan which distributes a gentle air flow around the inner cabinet of your fire enhancing the transfer of heat into the room to maximise efficiency.

	Ultra low emission model (ULEB)
Heat output	18kW peak heat output
Heating area	Heat up to 200m ² / 4 bedroom home
Finish	Metallic black high temperature paint
Wetback	N/A
MfE#	200998 (NES) / 200997 (ECan CM1)
Emission	0.39gms (NES) / 27.7mg/MJ (ECan CM1)
Efficiency	67.4% (NES)
SKU	200-1190

Specifications were correct at the time of printing but may alter and those detailed should be used only as a guide. If in doubt, please consult your local Metro Fires stockist. Peak heat outputs (kW) are based on the NZHHA test method using dry pine with testing undertaken by independent International Accredited New Zealand (IANZ) testing facilities.
