

Wee Rad - Base

The Wee Rad Base model features a clean burning firebox design that delivers a peak heat output of 15kW to warm your home. The generous door glass provides the perfect flame view to enjoy on those cold winter nights. The flat radiant cooktop offers ample space for both pots and kettles. This model can also be fitted with a wetback to assist with your water heating requirements.

Specifications were correct at the time of printing but may alter and those detailed should be used only as a guide. If in doubt, please consult your local Metro Fires stockist. Peak heat outputs (kW) are based on the NZHHA test method using dry pine with testing undertaken by independent International Accredited New Zealand (IANZ) testing facilities.
